

Communication Solutions When It Matters

SafeDispatch™ Mobile

BENEFITS YOU CAN COUNT ON

- **ZERO DOWN TIME**
Have round-the-clock access to the real-time information you need to make essential decisions even when out of the office
- **EXPANDED COVERAGE AREA**
Seamless communication via the IP network for your users when traveling outside of your radio system's coverage area
- **SUPERVISE FROM ANYWHERE**
Remotely monitor and manage, connect via talk or text or share data with your radio users from anywhere in the world
- **USE YOUR OWN DEVICE**
Save money on equipment by adding SafeDispatch™ Mobile to your existing Android tablets or cellular phones

ANDROID-BASED MOBILE DISPATCH SOLUTION

SafeDispatch™ Mobile applications provide access to your MOTOTRBO® or TETRA radio fleets via IP networks using the Android mobile platform.

SafeDispatch™ Mobile is designed primarily to function as an Android-based mobile dispatch center equipped with a number of voice and data capabilities to improve efficiency, coordination and response time in the field.

Real-time personnel, asset and vehicle tracking enable managers to monitor and control fleets from anywhere in the world.
